## *Data and documents*

# Recap: key factors

- **Structured data** → data-entry done only once by its producer = time saving in the courts
- Applications for external users are **on the market** → up-to-date integrated software = *they do it better !*
- No closing time → Overcome opening times of courts
- Lawyers can work from everywhere → overcome physical address for service
- Judges can work from everywhere → out of office
- **High-level security, reliability and confidentiality**

# Thank you for your attention
